HOUSE OF Rynveld

Fall

1939

FOREWORD

With the heads of the leading institutions combining in an effort to avert any suspension in business activities, there is every reason to expect the continuity of reasonably good times and the trade therefore, can look to the future with optimism.

Our constantly increasing fall volume has enabled us to effect economies in production and handling and we are pleased to pass these advantages to our customers in the shape of lower prices. We invite your special attention to our very reasonable quotations on the leading varieties of tulips and other popular fall bulbs.

Primarily we are bulb growers and it is our policy and desire to actually produce, to the greatest possible extent, all of the bulbs we sell. It is reasonable to believe that we can thus regulate a more consistent supply of uniform high quality bulbs than it is possible to obtain if we had to depend upon other suppliers.

A real satisfaction comes to us in observing the relation maintained with so many of our old buyers—for this is the most striking proof that we are pleasing them.

I wish to take this opportunity to extend to you my sincere appreciation for your patronage in the past, and hope that we may continue to enjoy your goodwill. If you have not received bulbs from us in the past I would appreciate an opportunity to serve you. I am sure that you will find our dealings most satisfactory, and given an opportunity to supply you with quality stock, you will also become a life-long customer of our firm.

Sincerely yours,

Herman Rynveld

Terms

5% off for cash with order.

2% off for payment within 10 days.

All bills payable net 60 days.

Unless credit is established with us please give references and allow us sufficient time for checking.

All quotations herein are for shipment F. O. B. New York.

For the convenience of our Southern customers we can make shipment of Florida grown stock direct from growing station at Jacksonville, Fla.

Prices quoted herein are subject in all cases to maintenance of present tariff schedule on the respective item and any change made therein before delivery automatically cancels the within quoted prices.

Display Cards for Your Counter Trade

To those who retail bulbs we offer free of charge display card reproductions in natural colors. It is important that you have these as they are of considerable assistance in increasing sales and obtaining new customers.

SERVICE

We maintain offices and warehouses at New York and California and carry a complete line of Fall bulbs in stock for our customers' requirements.

Wire orders are filled the same day as received by us. All others within 48 hours of receipt. Your inquiries are welcomed and we are pleased to make suggestions as to culture or selection when requested.

We have a representative in your territory. Let us have him call on you.

We Guarantee

That all bulbs leave our farm or warehouse in good condition, packed in boxes sufficiently strong and substantially secure to insure delivery in good order but we do not assume risks in transit.

That all stock is true to name as represented.

That all stock is inspected and found to be sound and free from disease when shipped.

We Do Not Guarantee

Productivity—The actual growing of flowers is subject to many conditions over which we exercise no control. We allow five days after delivery for inspection by the purchaser and cannot entertain complaints made after the expiration of this period. All requests for adjustment must be made in writing to our main office at 149-155 West 24th Street, New York City, and we assume no liability for those made verbally to our salesmen or in any other way.

PRICES

Allow us to sound a word of warning to those who contemplate placing orders based upon competitive quotations. During a period of declining prices such as we have had recently, competition has developed into a frenzy of price cutting with the inevitable result that quality is sacrificed for the sake of price. Skimping on prices when purchasing bulbs invariably results in depreciated returns at blooming time.

We maintain that **quality for quality** our prices are lower than those quoted by others not interested in maintaining the high standard which we have set up.

SQUARE DEAL

To those who have dealt with us for years we need not repeat our policy of square dealing. To our new customers we desire to say that at all times we are anxious to adjust differences. Occasionally, mistakes occur and we receive requests for adjustments. Many are not our fault but our policy of "a square deal for the Florist" will not allow us to overlook them.

American Grown Narcissus (Daffodils)

The American grown Narcissus featured on these pages are produced by us on our farms on Long Island, N. Y. As we write this catalogue the digging of Narcissus is still in progress. We will have a beautiful lot of bulbs, but we also have a large number of advance orders which must be taken care of. Not until the bulbs are graded and counted can we determine the available quantities still to be offered. We do know, however, that on some of the popular forcing kinds our remaining stocks are running low. May we suggest, therefore, that you place your order immediately. We also supply West Coast grown Daffodils at the same price as Long Island grown stock.

CLASSIFICATION OF NARCISSUS TYPES

- | | |
|---|---|
| AJAX , large trumpets. | POETAZ , flowers in clusters. |
| BARRI , short cup, usually not over 1/3 the length of the perianth (petal). | POETICUS , white perianth, short cup, orange or scarlet rim. |
| INCOMPARABILIS , medium length cup, often 3/4 of the length of the perianth. | JONQUILS , small flowers in clusters. Sweet scented. |

Bulbous Iris

Everyone knows the value of these beautiful bulbous Irises. The flowers are not only superior in substance, brilliancy and purity of color, but also earlier and larger than the old Spanish Iris. These Irises are unsurpassed as cutflowers; they will stand any amount of handling.

Florists have found them very profitable for greenhouse forcing, bringing in good returns in the market. The bulbs we offer are produced at our Long Island farms, grown under cool weather conditions and free from the mosaic diseases.

SPIRAEAS

Spiraeas are again assuming their old popularity and are once more considered as one of the most valuable Easter pot plants. They are also being used extensively for Mother's Day. In addition to the old favorites we are growing some newer kinds of outstanding value. As a garden plant spiraeas offer great possibilities. Some plants in our nurseries that have become established two or three years throw up over 50 plumes. For cutflowers they are also useful and their graceful spikes are fine for funeral work.
